January Meeting Recap

Thank you to everyone who was able to join us for BOMA's
January Meeting -

"The History and Future of UW Tacoma"
January 25, 2011
Presented by Mike Wark,
Director of External Relations, UW Tacoma

Mike has worked for more than a decade performing duties in communications, marketing and governmental relations. He's seen the physical campus and enrollment triple in size while the surrounding downtown neighborhood has developed into a vibrant urban setting. Wark, whose served more than 20 years in Washington's public higher education system, touched on the history of UW Tacoma, including the physical build-out of the award-winning campus set in readapted historic warehouse. He also shared highlights of the master plan that will guide development of the campus into its 46-acre footprint. Wark was joined in his presentation by Milt Tremblay, Director of Facilities, who has more than 25 years of experience in public agency and school facilities management, including several years with the State Capitol Campus. Tremblay helps guide campus construction and oversees UW Tacoma's maintenance operations.
