### **April Meeting Recap**

#### **"What's Changing at Joint Base Lewis/MCChord!"**

Presented by Victor Rames, Corps of Engineers

The Construction Program at Joint Base Lewis McChord, JBLM has experienced record years and is expected to continue this trend for at least the next two years. As the Construction Agent for JBLM, the Corps of Engineers is responsible for executing the Military Construction Program at Joint Base Lewis/McChord (JBLM). Victor provided an overview of the type of facilities being built, discussed how this work is getting accomplished, and provided a layout by region of what is expected to be constructed in the next two years at JBLM.

Victor Ramos is the Army MILCON Program Manager for Seattle District and is heavily involved with the planning and implementation of this effort at JBLM. He has worked with the Corps of Engineers for over 18 years. Victor has an extensive background in mechanical engineering.

If you were unable to make the meeting, or would just like to review Victor's presentation again it can be found on the BOMA SPS website at:

<http://www.bomasouthpugetsound.org>.
