CLISE PROPERTIES, INC.

Clise Properties: The Art of Development

Founded in 1889, Clise Properties, Inc. owns and manages more than three million square feet of real estate in the downtown Seattle area. Commercial office properties include the Securities Building, Westin Building, Denny Building, Sixth & Lenora Building and the newly dedicated 1700 Seventh Avenue building.

For Clise, 1700 Seventh Avenue represents the first in a series of new generation Denny Triangle projects that will focus on downtown Seattle development by integrating commercial, retail and residential needs into a richly homogeneous and dynamic neighborhood environment.
